

High quality protein that has an optimal indispensable amino acid composition for human needs and high digestibility. Most dietary proteins of animal origin, including egg protein, can be considered as such high quality protein. Egg white protein is one of the first popular and complete protein supplements used by bodybuilders with great success. In many scientific works it's used as the base standard every other protein is compared to. One great advantage of EGG PRO is that it's not a milk protein and for example lactose intolerant users can also consume it!

Dietary proteins are the source of nitrogen and indispensable amino acids, which the body requires for tissue growth and maintenance, therefore EGG PRO's protein contributes to the growth and maintenance of muscle mass, and also to the maintenance of normal bones*.

*These statements have been scientifically proven by the European Food Safety Authority (EFSA) and authorized by the European Commission (EC).

Warnings: KEEP OUT OF REACH OF CHILDREN! Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such

Allergen info: Manufactured in a facility that processes milk, egg, gluten, soy, peanuts, nuts, fish and crustacean ingredients.

Storage conditions: Store in a cool, dry place. Heat and sunlight may damage the bottle!

Best before end: see on packaging. (MM/YYYY)

Batch number: see on packaging.
