

SCITEC NUTRITION®

MICELLAR CASEIN BASED CASEIN COMPLEX

100% CASEIN COMPLEX*

*100% OF PROTEIN FROM CASEINS

NET WT: 920 G

BELGIAN CHOCOLATE
FLAVOR

100% Casein Complex is a Micellar Casein dominant milk protein blend exclusively from casein milk proteins. Casein is high in the essential branched-chain amino acids (BCAA's) and very high (higher than Whey) in L-Glutamine, the most abundant free amino acid in human blood. 100% Casein Complex's protein contributes to the maintenance and growth of muscle mass and also to the maintenance of normal bones*. This product's milk proteins are so-called complete proteins, because they provide the body with all the necessary types of amino acids, including the 9 amino acids the body cannot synthesize and must be supplied by the diet (i.e. Histidine, Isoleucine, Leucine, Lysine, Methionine, Phenylalanine, Threonine, Tryptophan, Valine). Extra L-Glutamine and Taurine plus the digestive enzymes Papain and Bromelain are added to the formula! The calcium present in 100% Casein Complex contributes to normal muscle function, energy-yielding metabolism and neurotransmission. It is also needed for the maintenance of normal bones and teeth*.

*These statements have been scientifically proven by the European Food Safety Authority (EFSA) and authorized by the European Commission (EC).

WARNINGS: KEEP OUT OF REACH OF CHILDREN! DON'T EXCEED THE RECOMMENDED DAILY DOSAGE! Use this product in conjunction with food as part of a healthy, balanced diet, not as a substitute for such.

Allergen info: Manufactured in a facility that processes milk, egg, gluten, soy, peanuts, nuts, fish and crustacean ingredients.

Storage conditions: Store in a cool, dry place. Heat and sunlight may damage the bottle!

Best before end: see on packaging. (MM/YYYY)

Batch number: see on packaging.
